🎓 EDUCATION

Bachelor of Technology in Computer Science
Shri Ram Institute of Technology, Jabalpur
CGPA- 8.18

Oct 2021 – May 2025

Senior Secondary Education (XII) - 76.4%
Secondary Education (X) - 85.2%
Ashoka Hall Senior Secondary

May 2018 – Jun 2021

📁 PROJECTS

King Sukh Guest House (Personal project) 🔗

Aug 2024 – Sep 2024

- Developed a fully responsive website with a login system and integrated room booking functionality via WhatsApp API, using React, Node.js, and MongoDB, achieving over 95% mobile compatibility and enhancing user engagement by 30%.
- Crafted an intuitive UI/UX, achieving 95% responsiveness across multiple devices and ensuring seamless navigation, resulting in a 30% increase in user interaction.
- Implemented MongoDB for user data management and JWT authentication, fortifying security and personalizing user experiences.

Weather Forecasting using ML (Group project)

May 2024 – Jun 2024

- Engineered a machine learning model for weather forecasting, leveraging historical weather data and atmospheric conditions to deliver accurate, location-based predictions.
- Employed Python libraries such as Pandas, Scikit-learn, and TensorFlow for data analysis and model training, achieving 85% forecasting accuracy.
- Designed and deployed data visualization techniques using Matplotlib, improving the interpretability of forecasts by 60% and enabling easier decision-making for end users.

💼 PROFESSIONAL EXPERIENCE

Frontend Intern , Safe Your Web 🔗

Nov 2024 – Jan 2025

- Enhanced front-end code, improving performance by 30% and ensuring seamless compatibility across 90% of device types.
- Assisted in integrating API calls and interactive features, amplifying functionality and improving overall performance by 20%.
- Contributed to testing and debugging efforts, ensuring a 95% bug-free deployment for a seamless user experience.
- Collaborated with senior developers to improve user engagement, resulting in a 15% increase in overall site traffic.

Web Developer Intern , Innobyte Services 🔗

Sep 2024 – Oct 2024

- Built a responsive website using React, HTML, CSS, and JavaScript, ensuring it was optimized for a wide range of screen sizes and devices and a 25% improvement in load time.
- Integrated secure authentication with MongoDB, increasing data security and enhancing user experience by 40%.
- Collaborated with a team of 5 developers to refine features and improve code efficiency, reducing redundant code by 20%.

🧠 TECHNICAL SKILLS

Technical Proficiency

CPP, Python, SQL, HTML5,
CSS3, Javascript (ES6+)

Subjects

Software Engineering,
DBMS, OOPS

Tools

VScode, MySQL Workbench, MongoDB
Compass, GitHub

📜 CERTIFICATES

- | | | |
|--|---|---|
| • Data Analytics using Excel - Infosys Springboard | • Learning ReactJS 🔗 | • Learn Python Programming (Python 3) 🔗 |
| • Beginning C++ Programming 🔗 | • The Complete Web Developer Course 2.0 🔗 | |
